Health Guarantee for your puppy:

Your puppy is guaranteed to be free of PRA (progressive retinal atrophy) for up to one year (12 months). This condition must be determined by a certified canine ophthalmologist with CERF (Canine Eye Registration Foundation).

Your puppy is guaranteed to be free of hip dysplasia for up to 26 months of age. If your veterinarian suspects a hip dysplasia condition, the x-ray showing the condition of the hips must be verified by the OFA (Orthopedic Foundation for Animals). The x-rays must be done before the puppy is 25 months of age.

If either of these conditions is determined according to the guarantee outlined above, and the owner wants to keep the dog, I will refund half the purchase price upon receiving a veterinarian's letter confirming the dog has been spayed or neutered. Otherwise, I have the option of refunding the entire purchase price or replacing the puppy with a puppy of comparable breeding when available. The first puppy would then have to be returned to Copper Top's Labradors at 313 Clark Lane, Grimes, IA 50111 with all AKC paperwork. In any case, all diagnostic, veterinarian fees, registration, return and replacement costs are at the owner's expense.

The above mentioned guarantees are dependent upon demonstration that the puppy has received adequate care and nutrition. Anything that affects the development or well-being of the puppy, such as abuse, neglect, trauma, excessive jumping (i.e. Frisbees), or being used for breeding will void these guarantees.
